CALL FOR PAPERS

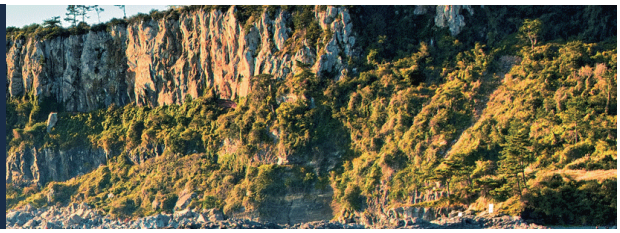

ISMNM2026

The 4th International Symposium of Micro & Nano Manufacturing

DECEMBER 9-12, 2026

Sheraton Jeju Hotel

Jeju, Korea

ABSTRACT SUBMISSION (EXTENDED)

NOV 16, 2026

EARLY REGISTRATION

NOV 16, 2026

SHARE YOUR RESEARCH

Join researchers and engineers advancing scalable, reliable micro and nano manufacturing. Submit a 200-500 word abstract using the official template, including author details and the corresponding author email.

SUBMIT AT ISMNM.ORG

KEYNOTE SPEAKER

Jinseok Kim

Western Michigan University
USA

Peridynamic Modeling of Electromechanical Fracture in Piezoelectric Materials

TOPICS

- Bottom-up micro/nano structuring
- Micro/nano machining
- Replication and additive manufacturing
- Atomic-scale manufacturing
- MEMS and NEMS
- Process simulation and equipment
- Measurement and inspection
- Design for micro/nano manufacturing
- AI and data-driven manufacturing
- Applications in electronics, biomedical engineering, optics, semiconductors, energy and industry

JOURNAL SUBMISSION
Presenters may submit full papers to Micro & Nano Manufacturing.
Standard journal peer review applies.

INVITED SPEAKERS

Jiyoung Chang
University of Utah, USA

Sung-Liang Chen
Shanghai Jiao Tong University, China

Dong Wook Shin
Hokkaido University, Japan

Masaki Michihata
The University of Tokyo, Japan

Sung-Won Youn
AIST, Japan

Yusuke Kajihara
The University of Tokyo, Japan

The speaker list will be updated on an ongoing basis.

ORGANIZED BY
